AUDITORS' REPORT
TO THE MEMBERS OF
MILLENNIUM BROKERAGE (PRIVATE) LIMITED

Opinion

We have audited the annexed financial statements of **"MILLENNIUM BROKERAGE (PRIVATE) LIMITED"**, which comprise the statement of financial position as at 30 June 2021, the statement of profit or loss, the statement of other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to explanations given to us, the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at 30 June 2021 and of the profit, other comprehensive income, changes in equity, cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017(XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

a) Proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
b) The statement of financial position, the statement of profit or loss, the statement of other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with books of account and returns;
c) Expenditure incurred during the year were for the purpose of the Company's business; and
d) No zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit of the financial statements **MILLENNIUM BROKERAGE (PRIVATE) LIMITED** for the year ended June 30, 2021 resulting in this independent auditors' report is Iqbal Hussain.

Chief Executive Officer

Director

MILLENNIUM BROKERAGE (PRIVATE) LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021

1 CORPORATE AND GENERAL INFROMATION

1.1 Legal Status and Operations

Millennium Brokerage (Private) Limited (the "Company") is a private limited company incorporated in Pakistan on November 08, 2012 under the Companies Ordinance, 1984 .The Company is a holder of Trading Rights Entitlement Certificate ("TREC") of Pakistan Stock Exchange Limited.

The Company is principally engaged in the business of investment advisory, purchase and sale of securities, financial consultancy, brokerage, underwriting, portfolio management and securities research.

Business Units	Geographical Location
Reregistered office	Room # M-2, Mezzanine Floor, Lahore Stock Exchange Building, 19 Khayaban-Aiwan-e-Iqbal, Lahore.
Branch Office	Office # 3, 92 East (3rd Floor), Razia Sharif Plaza, Fazl-ul-haq Road, Blue Area, Islamabad.

1.2 Summary of significant events and transactions in the current reporting year

The Company's financial position and performance was particularly affected by the following events and transactions during the reporting year:

- There were no significant impacts of COVID-19 pandemic on the carrying amount of assets or liabilities.

2 ACCOUNTING CONVERSION & BASIS FOR PREPARATIONS

2.1 Statement of compliance

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") as are notified under the Companies Act, 2017,
- Provisions of or directives issued under the Companies Act, 2017, and relevant provisions of the Securities Brokers (Licensing and Operations) Regulations 2016 (the "Regulations").
- Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS standards, the provision of and directives issued under the Companies Act, 2017 shall prevail.

2.2 Basis for Measurement

These financial statements have been prepared under the historical cost convention, except for certain items as disclosed in the relevant accounting policies below.

2.3 Functional & Presentation Currency

These financial statements are presented in Pakistan Rupee (Rs. / Rupees) which is the Company's functional currency. Amounts presented in the financial statements have been rounded off to the nearest of Rs. / Rupees, unless otherwise stated.

2.4 Use of Judgment and Estimates

The preparation of financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires the use of certain critical accounting estimates. In addition, it requires management to exercise judgment in the process of applying the Company's accounting policies. The areas involving a high degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements, are documented in the following accounting policies and notes, and relate primarily to:

- Useful lives, residual values and depreciation method of right of use asset Note: 3.2 & 6
- Useful lives, residual values and amortization method of intangible assets – Note: 3.3 & 7;

- Impairment loss of non-financial assets other than inventories – Note: 3.5;
- Classification, recognition, measurement / valuation of financial instruments Note: 3.4 & 8
- Provision for expected credit losses – Note: 3.5;

2.5 Use of Judgment and Estimates - Cont.

- Estimation of provisions - Note: 3.12;
- Fair value of unquoted equity investments Note: 9; and
- provision for taxation - Note 3.7 & 14.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented.

3.1 Property and equipment

Initial Recognition

Items of property and equipment are stated at cost less accumulated depreciation (if any) and impairment losses (if any). Cost includes expenditure that is direct attributable to the acquisition of the items.

Subsequent measurement

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Where such subsequent costs are incurred to replace parts and are capitalized, the carrying amount of replaced parts is derecognized. All other repair and maintenance expenditures are charged to profit or loss during the year in which the are incurred.

Depreciation

Depreciation on all items of property and equipment is calculated using the reducing balance method, in accordance with the rates specified in note 5 to these financial statements and after taking into account residual value, if material. Residual values and useful lives are reviewed and adjusted, if appropriate, at each balance sheet date. Depreciation is charged on an asset from the date when the asset is available for use until the asset is disposed of.

Disposal

An item of property and equipment is derecognized upon disposal or when no future benefits are expected from its use or disposal. Any gain or loss arising on asset derecognition (calculated as the difference between net disposal proceeds and the carrying amount of the asset) is included in the profit and loss account in the year in which the asset is derecognized.

Judgments and estimates

The useful lives, residual values and depreciation method are reviewed on a regular basis. The effect of any changes in estimate is accounted for on a prospective basis.

Impairment

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Change in estimate

The Company reviews useful lives of property and equipment on a regular basis. Any change in estimates in future years which might affect the carrying amounts of the respective items of property and equipment with a corresponding effect on the depreciation charge and impairment loss. Further, management also on a year basis reviews the carrying amounts of certain classes of property and equipment which are carried at revalued amounts. Any change in estimate in future years which might affect the carrying amount of these classes with a corresponding effect on the surplus on revaluation of property and equipment, related deferred tax liability and related charge of incremental depreciation.

3.2 Leases

The company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets i.e. 99 years.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.
The right-of-use assets are also subject to impairment.

Lease liabilities

At the commencement date of the lease, the company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.
Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.
In calculating the present value of lease payments, the Company uses its interest rate implicit in the lease at the lease commencement date After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Revaluation

Any revaluation increase arising on the revaluation of right of use asset is recognised in other comprehensive income and presented as a separate component of equity as "Revaluation surplus on right of use asset", except to the extent that it reverses a revaluation decrease for the same asset previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. Any decrease in carrying amount arising on the revaluation of right of use asset is charged to profit or loss to the extent that it exceeds the balance, if any, held in the Revaluation surplus on right of use asset relating to a previous revaluation of that asset. The surplus on revaluation right of use asset to the extent of incremental depreciation charged (net of deferred tax) is transferred to inappropriate profit.

3.3 Intangible Asset - Acquired

TREC Certificates and PMEX Certificate

These are stated at cost less impairment losses (if any). Cost includes expenditure that is directly attributable to the acquisition of the items. Trading Right Entitlement Certificates and Membership Card have indefinite useful life and accordingly are not amortized however, these are tested for impairment only. Impairment loss is recognized in profit and loss account.

Judgments and estimates

The useful lives, residual values and amortization method are reviewed on a regular basis. The effect of any changes in estimate accounted for on a prospective basis.

3.4 Financial Instruments

Initial measurement of financial asset

The Company classifies its financial assets into following three categories:

(a) fair value through other comprehensive income (FVTOCI);

(b) fair value through profit or loss (FVTPL); and

(c) measured at amortized cost.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

Subsequent measurement

Debt Investments

at FVOCI

These assets are subsequently measured at fair value. Interest/markup income calculated using the effective interest method, and impairment are recognised in the statement of profit or loss account. Other net gains and losses are recognised in other comprehensive income. On de-recognition, gains and losses accumulated in other comprehensive income are reclassified to the statement of profit and loss account.

at Amortized cost

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest/markup income, and impairment are recognised in the statement of profit and loss account.

at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest /markup of dividend income, are recognised in the statement of profit and loss account.

Equity Investments

at FVOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit or loss account unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in other comprehensive Income and are never reclassified to the statement of profit and loss account.

at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest /markup of dividend income, are recognised in the statement of profit and loss account.

Non-derivative financial assets

All non-derivative financial assets are initially recognised on trade dale i.e. date on which the Company becomes party to the respective contractual provisions. Non-derivative financial assets comprise loans and receivables that are financial assets with fixed or determinable payments that are not quoted in active markets. The Company derecognizes the financial assets when the contractual rights to the cash flows from the asset expires or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risk and rewards of ownership of the financial assets are transferred or it neither transfers nor retain substantially all of the risks and rewards of ownership and does not retain control over the transferred asset.

Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when the Company has a legally enforceable right to offset and the Company intends to either settle on a net basis. or to realize the assets and to settle the liabilities simultaneously. Income and expense items of such assets and liabilities are also offset and the net amount is reported in the financial statements only when permitted by the accounting and reporting standards as applicable in Pakistan.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, and financial liabilities at amortized cost, as appropriate

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied. The Company has not designated any financial liability as at fair value through profit or loss.

Financial liabilities at amortized cost (loans and borrowings)

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognized as well as through the EIR amortisation process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or

This category generally applies to interest-bearing loans and borrowings.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

3.5 Impairment

Financial Assets

The Company applies a three-stage approach to measure allowance for credit losses, using an expected credit loss approach as required under IFRS 9, for financial assets measured at amortized cost. The Company's expected credit loss impairment model reflects the present value of all cash shortfalls related to default events, either over the following twelve months, or over the expected life of a financial instrument, depending on credit deterioration from inception. The allowance/provision for credit losses reflects an unbiased, probability-weighted outcomes which considers multiple scenarios based on reasonable and supportable forecasts.

Where there has not been a significant decrease in credit risk since initial recognition of a financial instrument, an amount equal to 12 months expected credit loss is recorded. The expected credit loss is computed using a probability of default occurring over the next 12 months. For those instruments with a remaining maturity of less than 12 months, a probability of default corresponding to the remaining term to maturity is used.

When a financial instrument experiences a significant increase in credit risk subsequent to origination but is not considered to be in default, or when a financial instrument is considered to be in default, expected credit loss is computed based on lifetime expected credit losses.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition, and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue effort or cost. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessments, including forward-looking information.

Forward-looking information includes reasonable and supportable forecasts of future events and economic conditions. These include macro-economic information, which may be reflected through qualitative adjustments or overlays. The estimation and application of forward- looking information may require significant judgment.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. The gross carrying amount of a financial asset is written off when the Company has no reasonable expectation of recovering a financial asset in its entirety or a portion thereof. The Company makes this assessment on an individual asset basis, after consideration of multiple historical and forward- looking factors. Financial assets that are written off may still be subject to enforcement activities in order to comply with the Company's processes and procedures for recovery of amounts due.

Non-financial assets

At each reporting date, the company reviews the carrying amounts of its non-financial assets to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash Generating Units (CGUs).

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. A reversal of impairment loss for a cash generating unit is allocated to the assets of the unit, except for goodwill, pro rata with the carrying amounts of those assets. The increase in the carrying amounts shall be treated as reversals of impairment losses for individual assets and recognized in profit or loss unless the asset is measured at revalued amount. Any reversal of impairment loss of a revalued asset shall be treated as a revaluation increase.

3.6 Trade Receivable

Measurement

Trade receivable are recognized initially at fair value and subsequently measured at cost less provision for doubtful debts.

Impairment

A provision for impairment of trade receivable is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the debts. The amount of the provision is recognised in the statement of profit or loss. Bad debts are written-off in the statement of profit or loss on identification.

Judgments and estimates

Management reviews its trade debtors on a continuous basis to identify receivables where collection of the amount is no longer probable. These estimates are based on historical experience and are subject to change in condition at the time of actual recovery.

3.7 Taxation

Income tax expense comprises current and deferred tax.

Current

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date. Management yearly evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred

Deferred tax is accounted for using the balance sheet liability method in respect of all temporary differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable income.

Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable income will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

Deferred tax is calculated at the rates that are expected to apply to the year when the differences reverse, based on tax rates that have been enacted or substantially enacted by the balance sheet date.

Deferred tax is charged or credited in the statement of profit or loss account, except in the case of items credited or charged to comprehensive income or equity, in which case it is included in comprehensive income or equity.

Judgment and estimates

Significant judgment is required in determining the income tax expenses and corresponding provision for tax. There are many transactions and calculations for which the ultimate tax determination is uncertain as these matters are being contested at various legal forums. The Company recognizes liabilities for anticipated tax issues based on estimates of whether additional taxes will be due.

Judgment and estimates- continued

Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred tax assets and liabilities in the period in which such determination is made.

Further, the carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to reflect the current assessment of future taxable profits. If required, carrying amount of deferred tax asset is reduced to the extent that it is no longer probable that sufficient taxable profits to allow the benefit of part or all of that recognised deferred tax asset to be utilized. Any such reduction shall be reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Off-setting

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

3.8 Cash and cash equivalents

These are measured at cost which is the fair value. For the purposes of cash flow statement, cash and cash equivalents comprise balances with less than three months' maturity from the date of acquisition, including cash in hand, balances with banks on current and savings accounts and short term investment and running finance.

3.9 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the period in which the dividends are approved by the company's shareholders.

3.10 Share capital

Ordinary shares are classified as equity and recognized at their face value. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

3.11 Trade and other payables

Trade and other payables are recognized initially at fair value plus directly attributable cost, if any, and subsequently measured at amortized cost using the effective interest method. They are classified as current if payment is due within twelve months of the reporting date, and as non-current otherwise.

3.12 Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount could be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Judgment and estimates

As the actual outflows can differ from estimates made for provisions due to changes in laws, regulations, public expectations, technology, prices and conditions, and can take place many years in the future, the carrying amounts of provisions are reviewed at each reporting date and adjusted to take account of such changes. Any adjustments to the amount of previously recognised provision is recognised in the statement of profit or loss unless the provision was originally recognised as part of cost of an asset.

3.13 Contingent liabilities

A contingent liability is disclosed when the company has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events not wholly within the control of the company or the company has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

3.14 Revenue recognition

Revenue is recognized to the extent that it is probable that economic benefits will flow to the Company and the amount of revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable, net of any direct expenses.

Revenue is recognized on the following basis:

Brokerage Commission

Brokerage, consultation and advisory fee and commission on securities and commodities is recognized as and when related services are rendered.

Income on bank deposits

Mark-up / interest on bank deposits and return on investments is recognized on accrual basis.

Profit on exposure deposits

Profit on exposure deposits is recognized using the effective interest rate.

Dividend income

Dividend income is recognised when the Company's right to receive payment have been established and is recognized in profit or loss and included in other income.

Others

Gain / loss on sale of investment is recognized in the year in which they arise.

3.15 Borrowings

These are recorded at the proceeds received. Finance costs are accounted for on accrual basis and are disclosed as accrued interest / mark-up to the extent of the amount unpaid at the reporting date.

3.16 Fiduciary assets

Assets held in trust or in a fiduciary capacity by the Company are not treated as assets of the Company.

3.17 Earnings per share

The Company presents basic and diluted earnings per share (EPS). Basic EPS is calculated by dividing the profit and loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by using profit and loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for the effects of all dilutive potential ordinary shares.

3.18 Related party transactions

All transactions involving related parties arising in the normal course of business are conducted and recorded at rates that are not less than market.

4 INITIAL APPLICATION OF STANDARDS, AMENDMENTS OR AN INTERPRETATION TO EXISTING STANDARDS

4.1 Standards, amendments and interpretations to accounting and reporting standards that became effective during the year

The following standard and interpretation to accounting and reporting standards as applicable in Pakistan became effective for the first time and are relevant to the Company.

a) IFRS 16 - 'Leases'

b) IFRIC - 23 'Uncertainty over Income Tax Treatments'

The adoption of the above standard and interpretation to accounting standards did not have any material effect on the financial statements , details are as follows:

4.2 IFRS 16 - 'Leases'

IFRS 16 supersedes IAS 17 'Leases', 'IFRIC 4' Determining whether an Arrangement contains a Lease, 'SIC-15' Operating Leases Incentives and 'SIC-27' Evaluating the Substance of Transactions Involving the Legal Form of a Lease. IFRS-16 sets out the principles for the recognition, measurement, presentation and disclosure of leases. Under IFRS 16, distinction for lessees between operating and finance leases has been removed and all lease contracts, with limited exceptions will be recognized in statement of financial position by way of right-of-use assets along with their corresponding lease liabilities.

In applying the standard, the Company adopted IFRS 16 with effect from July 1, 2019 using the modified retrospective method. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application with no restatement of comparative information.

The right-of-use assets were recognized based on the amount equal to lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognized. Lease liabilities were recognized based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. The Company does not have any sub-lease as on July 1, 2019.

Lease term is the non-cancelable period for which the Company has right to use the underlying asset in line with the lease contract together with the periods covered by an option to extend which the Company is reasonably certain to exercise and option to terminate which the Company is not reasonably certain to exercise.

4.3 Standards, amendments and interpretations to accounting and reporting standards that are not yet

The following amendments to the accounting and reporting standards as applicable in Pakistan are relevant to the Company and would be effective from the dates mentioned below against the respective standard or interpretation:

		Effective date (annual reporting periods beginning on or after)
IAS 1	Presentation of financial statements (Amendments)	1-Jan-20
IAS 8	Accounting policies, changes in accounting estimates and errors (Amendments)	1-Jan-20
IAS 16	Property, Plant and Equipment (Amendments)	1-Jan-22
IAS 37	Provisions, Contingent Liabilities and Contingent Assets (Amendments)	1-Jan-22
IAS 39	Financial Instruments: Recognition and Measurement (Amendments)	1-Jan-20
IAS 41	Agriculture (Amendments)	1-Jan-20
IFRS 3	Business combinations (Amendments)	1-Jan-20
IFRS 7	Insurance contracts (Amendments)	1-Jan-23
IFRS 17	Financial instruments: disclosures (Amendments)	1-Jan-20
IFRS 9	Financial instruments (Amendments)	1-Jan-20

The management anticipates that adoption of above amendments in future periods, will have no material impact on the financial statements other than in presentation / disclosures.

4.4 Further, the following new standards have been issued by the International Accounting Standards Board (IASB), which are yet to be notified by the Securities and Exchange Commission of Pakistan (SECP), for the purpose of their applicability in Pakistan;

a) IFRS 1 First-time Adoption of International Financial Reporting Standards

b) IFRS 17 Insurance contracts

4.5 IFRIC 12 Service concession arrangement issued by the IASB has been waived off by SECP:

4.6 Change in accounting policy

During the year, the company changed its policy for subsequent measurement of right of use asset from cost to revaluation model. The financial statements for prior year have not been restated due to immaterial effect of change in accounting policy.

Conversion into share capital	19.1		(20,000,000)
Closing Balance		-	-

19.1 This represents opening balance of long term loan from director which has been converted into share capital of Rs.100 each.

19.2 The maximum amount outstanding at any time during the year is Rs. 20,000,000.

20 DEFERRED TAX LIBILITY

The deferred tax assets and the deferred tax liabilities relate to income tax in the same jurisdiction, and the law allows net settlement. Therefore, they have been offset in the statement of financial position as follows:

	2021	2020
	-------(Pak Rupees)-------	
Deferred tax liability	2,167,897	950,653
Deferred tax asset	(543,279)	(461,323)
	1,624,618	489,330

20.1 Analysis of change in deferred tax

Fixed assets	-	43,661
Fair value reserve - Other comprehensive income	2,167,897	906,992
Provision for doubtful debts	(543,279)	(461,323)
	1,624,618	489,330

21 TRADE AND OTHER PAYABLES

Trade payables	21.1	49,937,702	23,126,563
Accrued and other payables		15,465,644	2,834,774
		65,403,346	25,961,337

21.1 This amount includes Rs.20,667 payable to related parties.

22 SHORT-TERM BORROWINGS

Loan form Directors - unsecured	22.1	2,231	962,231
		2,231	962,231

22.1 This represents amounts received from Directors of the Company to fund short-term working capital needs. The loan bears no interest and is repayable on-demand. The loan is not discounted as it has no terms and can be demanded at any time. It is recognised at the full amount received.

23 CONTINGENCIES AND COMMITMENTS

There are no contingencies or commitments of the Company as at June 30, 2021 (2020: Nil).

28 EARNINGS PER SHARE

Basic earnings per share is calculated by dividing profit after tax for the year by the weighted average number of shares outstanding during the period, as follows:

	2021	2020
	-------(Pak Rupees)-------	
Profit / (loss) after taxation, attributable to ordinary shareholders	**10,163,907**	(2,749,060)
Weighted average number of ordinary shares in issue during the year	**618,000**	618,000
Earnings per share	**16.45**	(4.45)

28.1 Weighted average number of ordinary shares (basic)

Issued ordinary shares at 1 January	**618,000**	500,000
Effect of shares issued on December 31, 2019	**-**	118,000
	618,000	618,000

No figure for diluted earnings per share has been presented as the Company has not issued any dilutive instruments carrying options which would have an impact on earnings per share when exercised.

29 REMUNERATION OF CHIEF EXECUTIVE, DIRECTORS AND EXECUTIVES

The aggregate amounts charged in the financial statements for remuneration, including benefits, to the chief executive, directors and executives of the Company as per the terms of their employment are as follows:

	2021		2020	
	Chief Executive	Director	Chief Executive	Director
	-------(Pak Rupees)-------		-------(Pak Rupees)-------	
Short term employee benefits				
Managerial Remuneration	**1,597,200**	**4,388,560**	**1,452,000**	3,989,600
No. of persons	1	3	**1**	3

30 FINANCIAL RISK MANAGEMENT

30.1 Risk management framework

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance and provide maximum return to shareholders.

Risk management is carried out by the Company's finance department under policies approved by the Board of Directors.

30.2 Market risk

(i) Foreign currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies. The Company do not have any financial instruments in foreign currencies and accordingly is not exposed to such risk.

(ii) Interest rate risk

Interest rate risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has no significant long-term interest-bearing assets. Financial instruments at variable rates expose the Company to cash flow interest rate risk. At the reporting date, there were no variable rate interest -bearing financial instruments.

(iii) Other price risk

Other price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The maximum exposure to price risk at the reporting date was as follows:

(iv) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

(a) Trade Receivable

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The aging analysis of trade receivable has been shown in respective head.

(b) Other financial assets at amortised cost

Other financial assets at amortised cost include deposits, short term loans and advances, and other receivables.

(v) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Company manages liquidity risk by maintaining sufficient cash and bank balances. At 30 June, 2020, the Company had Rupees 64,194,564 (2020: Rupees 26,416,701) bank balances. The management believes the liquidity risk to be low. Following are the contractual maturities of financial liabilities, including interest payments. The amount disclosed in the table are undiscounted cash flows:

	Carrying amount	Contractual cash flows	Less than one year	More than one year
	---------- Rupees ----------			
Contractual maturities of financial liabilities as at June 30, 2021:				
Financial liabilities:				
Short term borrowing	2,231	2,231	-	2,231
Trade and other payables	65,403,346	65,403,346	65,403,346	-
	65,405,577	**65,405,577**	**65,403,346**	**2,231**
Contractual maturities of financial liabilities as at June 30, 2020:				
Financial liabilities :				
Short term borrowing	962,231	962,231	962,231	-
Trade and other payables	25,961,337	25,961,337	25,961,337	-
	26,923,568	**26,923,568**	**26,923,568**	**-**

Contractual cash flows include interest related cash flows up to the year end. The future interest related cash flows depends on the extent of utilization of short term borrowings facilities and the interest rates applicable at that time.

31 FAIR VALUE MEASUREMNT OF FINANCIAL INSTRUMENTS

Set out below is a comparison, by class, of the carrying amounts and fair values of the company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

31.1 Fair value of financial instruments

	2021		2020	
	Carrying amount	Fair value	Carrying amount	Fair value
	------- Rupees -------			
Financial Assets				
Non-listed equity investments	**19,521,142**	**19,521,142**	13,723,877	13,723,877
Trade and other receivable - net	**5,864,510**	**5,864,510**	3,915,391	
Advances to employees	**2,683,259**	**2,683,259**	1,570,659	1,570,659
Cash and bank balances	**64,194,564**	**64,194,564**	26,526,074	
Total	**92,263,475**	**92,263,475**	45,736,001	15,294,536

The management assessed that the fair values of cash and short-term deposits, trade receivables, trade payables, short term finances and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The following methods and assumptions were used to estimate the fair values:

Non-listed equity investments

This represents investment in the shares of LSE Financial Services Limited. The shares are non-listed and there is no evidence of existence of an active market or transactions amongst the participants at an arms length basis. As an alternative approach, the break-up value of shares (calculated as per TR-22 issued by ICAP) of LSE Financial Services Limited as per their latest audited financial statements has been taken as an estimation of fair value.

31.2 Measurement hierarchy of financial instruments

The following table shows the fair values of financial assets, including their levels in the fair value hierarchy. It does not include fair value information for financial assets not measured at fair value if the carrying amount is a reasonable approximation of fair value. The company does not have a financial liability measured at fair value.

	level 1	level 2	level 3	Total
	------- Rupees -------			
As at June 30, 2021				
Financial Assets				
Non-listed equity investments	-	-	**19,521,142**	**19,521,142**
	-	-	**19,521,142**	**19,521,142**
As at June 30, 2020				
Financial Assets				
Non-listed equity investments	-	-	13,723,877	13,723,877
	-	-	13,723,877	13,723,877

(a) Sensitivity Analysis

The table below summarizes Company's equity price risk as of June 30, 2021 and 2020 and shows the effects of a hypothetical 10% increase and a 10% decrease in market prices as at the year end reporting dates. The selected hypothetical change does not reflect what could be considered to be the best or worst case scenarios. Indeed, results could be worse because of the nature of equity markets and the aforementioned concentrations existing in Company's equity investment portfolio.

	Fair Value	Hypothetical Change	Estimated fair value after hypothetical change	Hypothetical change in shareholder equity	Hypothetical change in Profit / (Loss) after tax
June 30, 2021	19,521,142	10% increase	21,473,256	1,952,114	-
Non-Listed Equity securities		10% decrease	17,569,028	(1,952,114)	-
June 30, 2020	13,723,877	10% increase	15,096,265	1,372,388	-
Non-Listed Equity securities		10% decrease	12,351,489	(1,372,388)	-

31.3 Reconciliation of level 3 fair values

The following table shows reconciliation of fair value measurement of non-listed equity investments classified as equity instruments designated at fair value through OCI:

	2021	2020
	------- Rupees -------	
Balance as at July 01, 2020/2019	**13,723,877**	19,158,233
Remeasurement recognised in OCI	**5,797,265**	(5,434,356)
Balance as at June 30, 2021/2020	**19,521,142**	13,723,877

31.4 Transfers between hierarchy levels

There were no transfers amongst the levels during the year.

32 CAPITAL MANAGEMENT

The Company's objective when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefit for other stake holders and to maintain an optimal capital structure to reduce the cost of capital.

The Company manages its capital structure and makes adjustments to it in the light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders or issue new shares.

The management seeks to maintain a balance between higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

The total long term borrowings to equity ratio as at year end are as follows:

	Notes	2021	2020
		------- Rupees -------	
Debt	**22**	**2,231**	962,231
Equity	**16**	**54,089,008**	37,688,741
		54,091,239	38,650,972
		0%	**3%**

32 CAPITAL MANAGEMENT - Continue

Debt/equity ratio

The Company finances its operations through equity, borrowings and management of working capital with a view to maintaining an appropriate mix between various sources of finance to minimize risk.

33 CAPITAL ADEQUACY LEVEL AND CAPITAL RISK MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure.

Net capital requirements of the Company are set and regulated by Pakistan Stock Exchange Limited. These requirements are put in place to ensure sufficient solvency margins and are based on excess of current assets over current liabilities.

The Capital adequacy level as required by CDC is calculated as follows;

Total assets	**121,119,203**	65,101,639
Less: Total liabilities	**(67,030,195)**	(27,412,898)
Capital adequacy level	**54,089,008**	37,688,741

While determining the value of the total assets of the TREC Holder, Notional value of the TRE certificate as at year ended as determined by Pakistan Stock Exchange has been considered.

34 BASE MINIMUM CAPITAL

In compliance with the Regulation 19.2 of the Rule Book. of Pakistan Stock Exchange Limited, every Trading Right Entitlement Certificate (TREC) holder registered as a broker under Broker and Agents Registration Rules, 2001 , is required to maintain a Base Minimum Capital (BMC) in the amount and form as prescribed in the Rule on the basis of Assets Under Custody (AUC). As per the said regulation, as at June 30, 2021, the Company is required to maintain BMC of Rs. 17 million.The Company has pledged TRE Certificate and a portion of shares of ISE REIT to meet this requirement.

The notional value of the TREC and break-up value of the shares for the purpose of BMC is determined by the PSX as under:

	Note	2021 Pak Rupees

35.1 Statement of Compliance

This Net Capital Balance Statement is prepared in accordance with the requirements of the Regulation 6 and the Second Schedule of the Securities Brokers (Licensing and Operations) Regulations, 2016 read with Rule 2(d) of the Securities and Exchange Commission Rules, 1971 and SECP guidelines.

The accounting principles and methods of computation used in the preparation of this Statement of Net Capital Balance are the prevailing accounting policies of Millennium Brokerage (Private) Limited.

The valuation of current assets and current liabilities for the purposes of net capital balance has been determined on the basis of the following:

Description	Valuation Basis
Cash & Bank balances	As per Book Value
Cash Margin with NCCPL	As per Book Value
Trade Receivables	Book value less those overdue for more than 14 days
Securities Purchased for Clients	Securities purchased for the customer and held by the broker where the payment has not been received within fourteen days
Any other asset	As per the valuation basis determined by the Commission
Trade Payables	Book value less overdue for more than 30 days
Other liabilities	As classified under generally accepted accounting principles

35.2 Trade Receivable

		30-Jun-21 Pak Rupees
Book Value as at June 30, 2021	12	7,506,506
Less: Overdue for more than 14 days		(2,864,784)
		4,641,722

35.3 Securitas Purchased for Clients

These are the securities, purchased for the customers and held by the broker where the payment has not been received within fourteen days.

35.4 Trade Payable	Note	30-Jun-21 Pak Rupees
Book Value as at June 30, 2021	21	49,937,702
Less: Overdue for more than 30 days		(28,699,796)
		21,237,906

35.5 Other Payable		
Trade payables overdue for more than 30 days	21	28,699,796
Accrued and other payable	21	15,465,644
Short-term borrowing	22	2,231
		44,167,671
